REFERENCE MATERIALS FOR THE ANNUAL SHAREHOLDERS' MEETING**Proposal No. 1 Election of Ten Directors**

The terms of office for all nine Directors expire at the close of this Annual Shareholders' Meeting. In appointing Directors at this Annual Shareholders' Meeting, the Company proposes the election of ten Directors, including six Independent Directors, by adding one more Independent Director in order to further strengthen the advisory and oversight functions of management. The candidates for Director are as listed on Pages 8 through 17, and the term of office for each Director shall be until the close of next year's Annual Shareholders' Meeting.

The candidates for Director were approved by the Board of Directors as the Executive Nomination Committee consulted with the Board of Directors and gave a report after consideration in accordance with the "Structural framework" and the "Procedures and policy of Directors and Auditors nomination/dismissal" stipulated in the "Company's Corporate Governance Policy." In addition, for the purpose of materializing the discussion on the mid-to long-term Management Direction in the Board of Directors, the nomination of the candidates for Executive Directors was conducted from a standpoint of electing candidates with a company-wide perspective and who can meet expectations that shareholders have for this position.

To achieve the Company's Our Purpose of "Make the world more sustainable by building trust in society through innovation," under a business execution system led by Mr. Takahito Tokita as Representative Director, CEO, the Company has steadily implemented initiatives based on the Medium-Term Management Plan covering fiscal 2023 to fiscal 2025, focusing on the transformation of our business portfolio that contributes to improving corporate value and expanding profitability. Looking ahead, under a new plan toward our ideal state for 2035, the Company has nominated Mr. Takahito Tokita, Representative Director, CEO, Mr. Takeshi Isobe, Representative Director, Corporate Vice President, CFO, and Mr. Hiroki Hiramatsu, Director and Corporate Executive Officer, SEVP, as candidates for Director to continue executing business operations, with the aim of achieving further increases in corporate value.

Mr. Kunimasa Suzuki, who is a new candidate for Director, is a candidate for Independent Director. The Company expects him to provide oversight and advice from a fair and objective standpoint, drawing on his extensive management experience at global companies and his broad expertise, including in the technology field.

Regarding six Non-Executive Directors, including five other Independent Directors, the Company proposes their reappointment in order to ensure continuity in oversight and advice, taking into account that the structure of three Executive Directors will be maintained.

		[Special Notice regarding the Director Candidate]
		Please refer to "Special Notice regarding the Director and the Audit & Supervisory Board Member Candidates" on Page 19.

Note:

*2) "No. of Years Served as a Director" is as of the close of this Annual Shareholders' Meeting.

*3) The Company eliminated the position names of Corporate Executive Officer (Senior Executive Vice President/Executive Vice President) in April 1, 2022 and Executive President in April 1, 2023 respectively, and changed to naming that demonstrates the scale of job responsibility using the FUJITSU Level (SEVP, EVP, SVP, etc.), the common global criteria. Although the stance regarding FUJITSU Levels as globally common levels has not changed, in Japan the names of "Senmu" for the position of SEVP, and "Jomu" for the position of EVP are used beginning on April 1, 2025.

*4) CDXO is an abbreviation of Chief Digital Transformation Officer.

		[Significant Concurrent Positions Outside the Company] None
		[Reasons for Nomination and Overview of Expected Role] Although Ms. Yoshiko Kojo has not previously been involved with company management other than having served as an external director, she served in important positions including the President of the Japan Association of International Relations. Her research has for many years focused mainly on the impact of economic entities, including private companies, on international politics. She has been serving as Chairperson of the Board of Directors since June 2024, contributing to enhancing the Company's corporate value through active and effective operation of the Board of Directors. In addition, since June 2025, as Chairperson of the Executive Nomination Committee, she has led discussions on matters such as the selection of Directors and succession planning for management. The Company expects her to continue providing oversight and advice from a broad perspective based on her knowledge and experience, as well as contributing to more sustained and substantive discussions at the Board of Directors and high-quality decision-making, and therefore propose her reappointment as Independent Director. The Company intends to reappoint her as Chairperson of the Board of Directors, if her appointment is approved at this Shareholders' Meeting.
		[Comments on Special-interest Relationships and the Independence of the Candidate] Ms. Yoshiko Kojo has no special-interest relationships with the Company. She is neither a Major Shareholder nor has she held an executive management position with a major trading partner of the Company within the preceding three fiscal years, and thus the Company believes that she satisfies the Independence Standards (Refer to Page 20) established by the Company. In accordance with listing regulations, the Company has reported to the securities exchanges on which the Company is listed in Japan that she is an "Independent Director."

		[Significant Concurrent Positions Outside the Company] President, The Japan Institute of International Affairs Outside Director, SEIREN CO., LTD. Outside Director, MITSUBISHI MOTORS CORPORATION Outside Director, Asahi Group Holdings, Ltd.
		[Reasons for Nomination and Overview of Expected Role] Although Mr. Kenichiro Sasae has not previously been involved with company management other than having served as an external director, he has served in important positions including the Vice-Minister for Foreign Affairs, Ambassador Extraordinary and Plenipotentiary of Japan to the United States of America, and currently as the President of the Japan Institute of International Affairs. This grants him extensive practical experience and deep expertise in international politics and economics. In light of the increasing complexity and sophistication of the international landscape and business environment in recent years, the Company expects him to continue providing fair and objective oversight and advice based on his global perspective and experience. Therefore, the Company propose his reappointment as Independent Director.
		[Comments on Special-interest Relationships and the Independence of the Candidate] Mr. Kenichiro Sasae has no special-interest relationships with the Company. In fiscal 2025, the Company has paid 20 million yen to the Japan Institute of International Affairs, where he serves as President, as the participation fee for its public interest project. However, the Company assessed that there is no significance to cause special interest relationships or influence over the independence of Outside Director. In addition, he is neither a Major Shareholder nor has he held an executive management position with a major trading partner of the Company within the preceding three fiscal years, and thus the Company believes that he satisfies the Independence Standards (Refer to Page 20) established by the Company. In accordance with listing regulations, the Company has reported to the securities exchanges on which the Company is listed in Japan that he is an "Independent Director."

		[Reasons for Nomination and Overview of Expected Role] Mr. Byron Gill is currently serving as Managing Partner at Indus Capital Partners, LLC, which is an institutional investor specializing in Asian markets, after gaining experience working for a foreign securities company. He has a wealth of experience cultivated through dialogues with invested companies, in addition to his specialist knowledge about finance and investment. Since June 2024, he has also served as Chairperson of the Compensation Committee, where he has led discussions on the structure and specific details of executive compensation. The Company expects him to continue providing fair and objective oversight and advice grounded in a global perspective, as well as contributing to the enhancement of corporate value by reflecting the views of shareholders and investors in Board of Directors discussions, and therefore propose his reappointment as Independent Director.
		[Comments on Special-interest Relationships and the Independence of the Candidate] Mr. Byron Gill has no special-interest relationships with the Company. Indus Capital Partners, LLC and the Company have no business dealings. Indus Capital Partners, LLC, where he serves as Managing Partner, is not a Major Shareholder as defined by the Independence Standards (Refer to Page 20) established by the Company. Moreover, he has not held an executive management position with a major trading partner of the Company within the preceding three fiscal years, and thus, he satisfies the Independence Standards established by the Company. In accordance with listing regulations, the Company has reported to the securities exchanges on which the Company is listed in Japan that he is an "Independent Director." Additionally, he has declared that he would fulfill his duties as a Director for the Company and for all the shareholders of the Company.

Proposal No. 2 Election of One Audit & Supervisory Board Member

The term of office for Ms. Catherine O'Connell, Independent Audit & Supervisory Board Member, will expire at the close of this Annual Shareholders' Meeting. Accordingly, the Company proposes the election of one Audit & Supervisory Board Member. The candidate for Audit & Supervisory Board Member is stated below.

Taking into account that an important role of Audit & Supervisory Board Members is to perform compliance and accounting audits, the Company has decided to adopt a structure for audits to be performed by two full-time Audit & Supervisory Board Members and three Independent Audit & Supervisory Board Members who have the experience and knowledge required for such audits.

The Company has already received the consent for this proposal from the Audit & Supervisory Board.

Special Notice regarding the Director and the Audit & Supervisory Board Member Candidates

- The Company concluded an agreement limiting liability for damages under Article 423, paragraph 1 of the Companies Act with Mr. Hidenori Furuta, Ms. Yoshiko Kojo, Mr. Kenichiro Sasae, Mr. Byron Gill, Mr. Takuya Hirano, Ms. Izumi Kobayashi and Ms. Catherine O'Connell. The maximum amount of liability for damages in accordance with the relevant agreement is the minimum liability amount stipulated by laws and regulations. The Company intends to extend the agreement if each appointment is approved at this Shareholders' Meeting. If Mr. Kunimasa Suzuki is appointed at this Shareholders' Meeting, the Company plans to conclude a similar agreement with him.
- The Company has concluded a directors and officers liability insurance contract with an insurance company as prescribed in Article 430-3, Paragraph 1 of the Companies Act. It covers the damages and dispute costs incurred by the insureds, including the Company's Directors and Audit & Supervisory Board Members, due to claims for damages as a result of acts carried out in accordance with their positions (excluding cases of damage compensation claims arising from illegally obtained benefits or favors, misconduct, or other wrongful acts). If a candidate for Director or Audit & Supervisory Board Member is appointed at this Annual Shareholders' Meeting, the person will be an insured in the insurance contract. The Company plans to renew the contract with the same content at the next contract renewal again.

(Reference) Stance on Independence of External Directors & Auditors

The Company states its “Independence Standards for External Directors & Auditors in the Corporate Governance Policy,” which was established by the resolution of the Board of Directors in December 2015.

Independence Standards for External Directors & Auditors

The Company determines that External Directors & Auditors are independent if, as a result of an investigation to the extent reasonably possible in the Company, it is determined that the External Directors & Auditors satisfy all of the criteria set forth in paragraphs 1. through 4. below.

1. A person who is not a Director (excludes Independent Director) or an employee of the Fujitsu Group¹, at present and/or in the past.
2. A Director and Auditor will be independent if none of the following items are met, at present and/or in the past three years:
 - (1) Director, Executive Officer, Audit & Supervisory Board Member, or important employee³ of a Major Shareholder² of the Company;
 - (2) Director, Executive Officer, Audit & Supervisory Board Member, or important employee³ of a Major Lender⁴ to the Company;
 - (3) Partner or employee of Accounting Auditor of the Company;
 - (4) Director, Executive Officer, Audit & Supervisory Board Member, or Corporate Executive Officer mutually exchanged between the Company and another company;
 - (5) A person who receives a Significant Amount of Monetary Benefits⁵ or other property as an individual, or as a Director, Executive Officer, Audit & Supervisory Board Member, or important employee³ of a small corporation, etc. that can be regarded as an individual, other than the compensation as a Director or Audit & Supervisory Board Member from the Company; or
 - (6) Director, Executive Officer, Audit & Supervisory Board Member, or important employee³ of a Major Business Partner⁶ of the Company.
3. A person who does not have a Close Relative⁷ will be independent, wherein a Close Relative meets one of the following items, at present or at any time within the preceding three years:
 - (1) Executive Director, Non-Executive Director⁸, or important employee of the Fujitsu Group; and
 - (2) Any person listed in any of the above items (1) through (6) of Paragraph 2 (provided, however, that in the case of item (3), this is limited to important persons for natural persons listed in the same).
4. In addition to what is provided for in the preceding items, there are no other circumstances in which it is reasonably determined that there is a risk of substantial conflict of interest with General Shareholders.

1 “Fujitsu Group” means Fujitsu Limited and its subsidiaries.

2 “Major Shareholder” indicates a shareholder who holds at least 10 percent of the voting rights of the Company nominally or substantially.

3 “Employee” excludes an Independent Director or an Independent Auditor of a Major Shareholder, Lender, corporation, or Business Partner.

4 “Major Lender” indicates the lender whose total amount of the Company’s borrowings at the end of the most recent fiscal year exceeds 2% of the Company’s total consolidated assets at the end of the fiscal year.

5 “Significant Amount of Monetary Benefits” means the sum of annual compensation for expert services and donation exceeding 10 million yen on average for the past three fiscal years.

6 “Major Business Partner” means a company with whom the Company made a business transaction within the preceding three fiscal years and the total amount of the transaction (payments or receipts for ongoing product and service delivery and procurement) exceeds 2% of consolidated sales revenue of either the Company or that company.

7 “Close Relative” means a family, spouse, or cohabiter within the second degrees of kinship (as stipulated in the Civil Code of Japan).

8 This condition applies only when judging the independence of the Company’s External Audit & Supervisory Board Member or a nominee thereof.

9 The positions listed in the Independence Standards include those corresponding positions.

Proposal No. 3 Revision of the Amount of Compensation for Audit & Supervisory Board Members

The upper limit on compensation for Audit & Supervisory Board Members of the Company was approved at 150 million yen per year at the 111th Annual Shareholders' Meeting held on June 23, 2011, and this level has remained unchanged to date. In light of changes in the economic environment since 2011 and the increasing complexity of the business environment, the responsibilities and roles expected of Audit & Supervisory Board Members have expanded, and the need to secure diverse and highly qualified personnel has also grown. In view of these circumstances, the Company seeks approval to revise the annual compensation for Audit & Supervisory Board Members to an amount not exceeding 250 million yen per year.

This proposal was determined by the Board of Directors following deliberation by the Compensation Committee, taking into comprehensive consideration the Company's business scale, executive compensation structure and payment standards, the current number of Audit & Supervisory Board Members, and industry compensation levels, and is considered appropriate.

There are currently five Audit & Supervisory Board Members, and even if Proposal No. 2, "Election of One Audit & Supervisory Board Member," is approved as proposed, there will be no change in the number of Audit & Supervisory Board Members. If this proposal is approved as proposed, the Company plans to revise the compensation for Audit & Supervisory Board Members under the Basic Policy on Executive Compensation.

Reports on the 126th Business Period

Fujitsu Limited

Note:

This English version of *Reports on the 126th Business Period* is a translation for reference only. The style of this English version differs slightly from the original Japanese version.

To Our Shareholders

We would like to sincerely thank you for your continued support.

We welcome the opportunity to present this report on our 126th business period (covering fiscal year 2025, from April 1, 2025 to March 31, 2026).

The Fujitsu Group is dedicated to realizing Our Purpose “Make the world more sustainable by building trust in society through innovation.” To this end, we have identified three areas of Materiality (our essential areas for contributions): “Solving global environmental issues,” “Developing a digital society,” and “Improving people’s well-being.” For those three areas, we have set various key issues, which we are approaching through all our corporate activities.

The Fujitsu Group also established a medium-term management plan covering fiscal 2023 to fiscal 2025, positioning this period as a period to establish a business model for sustainable growth and improved profitability toward achieving its vision for 2030 and beyond. Under this plan, we have promoted measures in alignment with our four key strategies of Business Model and Portfolio Strategy; Customer Success Strategy/Regional Strategy; Technology Strategy; and People Strategy.

In fiscal 2025, the final year of this medium-term management plan, we expanded Uvance and the modernization business in the mainstay Service Solutions segment, thereby achieving business model transformation and improved profitability. Uvance’s sales revenue in fiscal 2025 exceeded initial plans, growing 47% from fiscal 2024 to 709.3 billion yen, and there was also an increase in Uvance’s share in total sales revenue of Service Solutions, up from 21% in fiscal 2024 to 30%. In Hardware Solutions, we are steadily advancing our efforts to strengthen our foundation by consolidating and spinning off functions such as manufacturing and sales in key businesses, thereby strengthening global competitiveness. In addition, centered on AI and computing, we created strategic links with external partners as we worked on strengthening technology tied to the differentiation of services. Furthermore, we made efforts to continuously improve each evaluation item by setting targets related to the four items of Environment, Customer, Productivity and People to serve as evaluation indicators for the non-financial area.

The new management plan beginning in fiscal 2026 will be formulated as a ten-year medium- to long-term vision with fiscal 2035 as its goal. We will position fiscal 2026 and beyond as a period of growth, make full use of the environment we have developed through our transformation to date, and work to further enhance corporate value by creating new businesses through new technology.

Regarding financial results for fiscal 2025, both operating profit and adjusted operating profit, net of one-off profits and losses, etc., in fiscal 2025, increased significantly, driven by higher revenue in Service Solutions and steady progress in improving profitability. Profit for the year reached a record high, due not only to the profit-increasing factors above, but also to the significant contribution from gains on the sale of shares in SHINKO ELECTRIC INDUSTRIES CO., LTD., Fujitsu General Limited, and other companies. Adjusted profit for the year, net of one-off profits and losses, etc., in fiscal 2025, also increased. For details of our financial results, please refer to Page A-4 of this report.

Considering these financial results and performance, and the financial position for fiscal 2025, we will pay an annual dividend of 50 yen per share for fiscal 2025. This is a 22 yen increase from the annual dividend for fiscal 2024, and our tenth consecutive year of stable and steady dividend increases.

In fiscal 2026, we will further promote creation of value offered to society as a whole and our customers and the transformation for this creation to achieve our management direction, to realize Our Purpose going forward, and to enhance the Company’s corporate value. Moreover, under the Company’s capital allocation

policy, we will expand the amount of shareholder returns by providing stable dividends in line with profit growth and flexibly conducting repurchases of treasury stock with an eye to improving capital efficiency.

We would like to ask for continued support and encouragement from all shareholders.

Note:

Fujitsu General Limited changed its trade name to GENERAL Inc. on January 1, 2026.

[(1.3)%] 	[31.4%] 	[27.1%] 	[104.5%] 	[23.8%] 

Notes:

1. Revenue is revenue from unaffiliated customers.
2. Adjusted operating profit is an indicator of the actual profit from the core business after deducting profits and losses resulting from business reorganization, business restructuring, M&A, etc. and one-off profits and losses from changes in regulations, etc. from operating profit.
3. Adjusted profit for the year attributable to owners of the parent is an indicator of the profit after deducting profits and losses resulting from business reorganization, business restructuring, M&A, etc. as well as one-off profits and losses from changes in regulations, etc. and the tax-equivalent amount (adjustment item) associated with these from the profit for the year attributable to owners of the parent.
4. The Company has classified the “Device Solutions” segment as discontinued operations since fiscal 2024. Due to this, the amounts indicated for revenue, operating profit, and adjusted operating profit represent amounts from continuing operations, excluding discontinued operations.

Consolidated revenue for fiscal 2025 was 3,502.9 billion yen, down 1.3% from fiscal 2024. In the Company’s mainstay “Service Solutions” segment, revenue increased due to factors such as higher business orders related to Uvance and modernization, particularly in the Japanese market. However, overall revenue declined, reflecting factors such as a pullback from large-scale contracts in the public sector in “Hardware Solutions” in fiscal 2024 and the completion of demand for OS upgrades in “Ubiquitous Solutions.”

Operating profit for fiscal 2025 amounted to 348.3 billion yen, an increase of 83.2 billion yen from fiscal 2024. This operating profit includes one-off losses of 42.2 billion yen associated with structural reforms in European and domestic hardware businesses. Adjusted operating profit for fiscal 2025, which represents actual profit from the core business after deducting these one-off losses was 390.5 billion yen, an increase of 83.3 billion yen from fiscal 2024. Profit increased significantly due to higher revenue in the “Service Solutions” segment and as a result of steadily taking steps to enhance the profitability.

Net financial income for fiscal 2025, consisting of financial income, financial expenses, and income from investments accounted for using the equity method, net, amounted to 60.7 billion yen, an increase of 52.3 billion yen from fiscal 2024, mainly due to the recognition of 40.0 billion yen from income from investments accounted for using the equity method, net, resulting from the sale of shares in Fujitsu General Limited.

As a result, profit before income taxes for fiscal 2025 was 409.0 billion yen, an increase of 135.5 billion yen from fiscal 2024.

Profit for the year attributable to owners of the parent was 449.4 billion yen, an increase of 229.6 billion yen from fiscal 2024, marking a record high. In addition to the profit-increasing factors described above, this was also due to the recognition of 141.5 billion yen from gains on the sale of shares in SHINKO ELECTRIC INDUSTRIES CO., LTD. as profit from discontinued operations. Adjusted profit for the year attributable to owners of the parent, net of one-off profits and losses, etc. in fiscal 2025 from profit for the year attributable to owners of the parent, was 298.2 billion yen, an increase of 57.3 billion yen from fiscal 2024.

The Company has classified the “Device Solutions” segment as discontinued operations since fiscal 2024. Due to this, the amounts indicated for revenue, operating profit, adjusted operating profit, net financial income, income from investments accounted for using the equity method, net, and profit before income taxes represent amounts from continuing operations, excluding discontinued operations.

Note:

Fujitsu General Limited changed its trade name to GENERAL Inc. on January 1, 2026.

Factors Behind Change in Adjusted Operating Profit

Revenue in the “Service Solutions” segment in fiscal 2025 amounted to 2,346.9 billion yen, an increase of 4.5% from fiscal 2024. There was very solid growth in business related to Uvance and modernization, particularly in the Japanese market. Uvance, which is positioned as a key part of business growth and portfolio transformation, generated revenue of 709.3 billion yen, an increase of 47% from fiscal 2024. Orders received also increased significantly, to 727.5 billion yen, an increase of 33% from fiscal 2024. As a result, Uvance’s share of the overall “Service Solutions” revenue grew to 30% from 21% of fiscal 2024. Business related to modernization resulted in a massive increase in revenue to 249.7 billion yen, an increase of 24% from fiscal 2024.

Adjusted operating profit was 361.4 billion yen, an increase of 71.4 billion yen from fiscal 2024, marking a record high following fiscal 2024. In addition to the impact of increased revenues in the Japanese market, steady progress in initiatives such as enhancing productivity through the standardization of development processes, as well as improving speed and stabilizing quality through the application of generative AI, led to improved profitability and a significant increase in profit.

< Sub-segments >

In “Global Solutions,” revenue increased by 5.7% from fiscal 2024, driven primarily by the expansion of Uvance’s revenue. Adjusted operating profit increased by 27.6 billion yen from fiscal 2024.

In “Regions (Japan),” revenue increased by 4.3% from fiscal 2024, as orders grew for business related to DX and modernization. Adjusted operating profit increased by 33.6 billion yen from fiscal 2024, thanks to the increase in revenue, as well as improved profitability.

In “Regions (International),” revenue decreased by 2.5% from fiscal 2024, mainly due to a rebound from large public-sector deals in fiscal 2024. Adjusted operating profit increased by 10.1 billion yen from fiscal 2024 due to the effects of business portfolio transformation.

Hardware Solutions

Revenue in the “Hardware Solutions” segment in fiscal 2025 amounted to 1,009.8 billion yen, a decrease of 9.8% from fiscal 2024. In Network Products, revenue increased by 6.6% from fiscal 2024 due to the advancement of base station delivery schedules. However, in System Products, revenue declined by 13.0% from fiscal 2024, mainly reflecting a rebound from large public-sector deals in fiscal 2024, resulting in an overall decrease. Adjusted operating profit was 67.0 billion yen, an increase of 5.7 billion yen from fiscal 2024, driven by enhanced business efficiency through the integrated manufacturing and sales structure of Fsas Technologies Inc., higher revenue from Network Products, and improved business efficiency at 1FINITY Inc.

Ubiquitous Solutions

Revenue in the “Ubiquitous Solutions” segment in fiscal 2025 was 229.8 billion yen, a decrease of 8.7% from fiscal 2024, due to the completion of replacement demand associated with the end of OS support, as well as a rebound from large deals in fiscal 2024. Adjusted operating profit was 38.8 billion yen, an increase of 7.4 billion yen from fiscal 2024, reflecting progress in shifting toward the sale of higher value-added products.

● Inter-segment Elimination/Corporate

“Inter-segment Elimination/Corporate” records the following items: advanced R&D conducted by groupwide organizations that do not belong to any of the segments; investment in common business growth including in-house DX investment on a global group basis; sale and disposal of common assets; and elimination of inter-segment revenue.

Adjusted operating loss from “Inter-segment Elimination/Corporate” was 76.7 billion yen, an increase in expenses of 1.3 billion yen from fiscal 2024. The Company is strengthening advanced R&D in areas such as AI and computing, while systematically executing medium- to long-term investments for business growth.

Note:

Revenue in each segment includes inter-segment revenue.

(3) Consolidated Asset and Profit (Loss) Situation for the Most Recent Four Fiscal Years

The Company has classified the “Device Solutions” segment as discontinued operations since fiscal 2024 (125th). Due to this, the amounts indicated for revenue and operating profit in fiscal 2024 and fiscal 2025 represent amounts from continuing operations, excluding discontinued operations. This will be similarly rearranged and indicated for the 124th business period.

(5) Significant Realignment

a) On December 12, 2023, the Company concluded a basic transaction agreement with JICC-04, Ltd. (hereinafter referred to as “JICC”) to transfer all of its shares of SHINKO ELECTRIC INDUSTRIES CO., LTD. (hereinafter referred to as “SHINKO”) to SHINKO through share repurchases by SHINKO on the assumption that the tender offer by JICC for SHINKO is consummated. Afterwards, as a result of JICC consummating the above-described tender offer on March 18, 2025, the Company transferred all its shares of SHINKO to SHINKO as of June 11, 2025. Accordingly, SHINKO ceased being a consolidated subsidiary of the Company.

b) On January 6, 2025, the Company concluded a basic transaction agreement with Paloma Rheem Holdings Co., Ltd. (hereinafter referred to as “Paloma”) to transfer all of its shares of Fujitsu General Limited (hereinafter referred to as “FGL”) to FGL through share repurchases by FGL on the assumption that the tender offer by Paloma for FGL is consummated. Afterwards, as a result of Paloma consummating the above-described tender offer on May 28, 2025, the Company transferred all its shares of FGL to FGL as of August 22, 2025. Accordingly, FGL ceased being an equity method affiliate of the Company.

c) The Company conducted an incorporation-type company split, transferring the research, development, design, manufacture, sale, planning, maintenance, and operation businesses of network products, including photonics systems and mobile systems, to 1FINITY Inc., on July 1, 2025.

Notes:

1. As of December 1, 2025, JICC-04, Ltd. has absorbed SHINKO through a merger and has changed its trade name to SHINKO ELECTRIC INDUSTRIES CO. LTD.
2. Fujitsu General Limited changed its trade name to GENERAL Inc. on January 1, 2026.

(6) Capital Expenditures

Capital expenditures in fiscal 2025 totaled 50.3 billion yen, a decrease of 2.3% compared with fiscal 2024.

In the “Service Solutions” segment, capital expenditures amounted to 17.2 billion yen, primarily for equipment related to the service business, including data center equipment.

Note:

The Company has classified the “Device Solutions” segment as discontinued operations since fiscal 2024. Due to this, the amount indicated for capital expenditures represents amount from continuing operations, excluding discontinued operations.

(7) Capital Procurement

During fiscal 2025, the Company did not engage in any capital procurement worthy of note by means of issuance of shares or bonds.

(8) Key Challenges Ahead

The Fujitsu Group has defined its Purpose as “Make the world more sustainable by building trust in society through innovation.” To achieve Our Purpose, we have established key issues to focus on in the three areas of Materiality essential to our management: “Solving global environmental issues,” “Developing a digital society,” and “Improving people’s well-being.” We are promoting initiatives across all corporate activities, including business, to address these issues. Through these efforts, we aim to increase the Fujitsu Group’s corporate value and create a sustainable world.

We will invest capital such as financial and human capital, address Materiality in line with our key strategies, produce outputs and outcomes in both financial and non-financial terms, and invest these as inputs. By continuing this cycle, we will strive to improve the value we provide to our stakeholders.

< Market Environment >

Regarding the market environment surrounding the Fujitsu Group, the existing IT market, such as conventional mission-critical systems, is expected to continue to shrink at a moderate pace. On the other

hand, spending on modernization of legacy systems and shift to cloud computing and digitalization are predicted to continue to solidly increase. Moreover, spending on technologies such as AI (Artificial Intelligence), represented by generative AI, and increasing operations sophistication, such as data analysis and utilization, are expected to continue to expand, in order to respond to changes in social systems and industrial structures, in addition to the needs for society and businesses to grow and develop.

[Medium-Term Management Plan Through Fiscal 2025]

Under these circumstances, the Fujitsu Group established a medium-term management plan covering fiscal 2023 to fiscal 2025, positioning this period as a period to establish a business model for sustainable growth and improved profitability toward achieving its vision for 2030 and beyond. To realize our desired state in 2025 and maximize the value delivered to stakeholders, we advanced initiatives aligned with the four key strategies of Business Model and Portfolio Strategy; Customer Success Strategy/Regional Strategy; Technology Strategy; and People Strategy. We have worked steadily toward achieving our targets.

[Progress in Fiscal 2025]

We have mainly pursued the following four key strategies for fiscal 2025. The first is the Business Model and Portfolio Strategy, through which we are expanding the Service Solutions segment centered on Uvance and strengthening the foundation of the Hardware Solutions segment.

The share of revenue provided by Uvance in the Service Solutions segment has been increasing. Uvance's revenue for fiscal 2025 was 709.3 billion yen, well above the initial plan of 700.0 billion yen, and an increase of 47% from 482.8 billion yen in fiscal 2024. As a result, Uvance's share of the overall Service Solutions revenue grew to 30% from 21% of fiscal 2024. In fiscal 2025, in addition to steady growth in revenue from the Horizontal areas of technology infrastructure, revenue from Vertical areas, which provide digital services by approaching markets from a cross-industry perspective, expanded significantly, particularly in the Data & AI domain. As a result, revenue from the Vertical areas accounted for more than 40% of total Uvance revenue. We are also focused on expanding our consulting business brand "Uvance Wayfinders." Through this consulting-led service, we are providing business negotiations that lead the way for customer management transformation from agenda development to implementation. In addition, we steadily increased the recurring ratio of deals by applying AI to Uvance offerings, developing offerings that combine partner solutions, and expanding our offerings globally.

We are strengthening global competitiveness of the Hardware Solutions segment by consolidating the series of functions related to the Hardware Solutions segment spread throughout the Fujitsu Group (namely R&D, manufacturing, sales, and operation/maintenance), as well as spinning off separate companies for these functions. Fsas Technologies Inc., established in April 2024 to handle server and storage operations, has improved business efficiency through an integrated manufacturing and sales structure, contributing to improved profitability in the Hardware Solutions segment. In addition, in July 2025, 1FINITY Inc., responsible for Network Product businesses, including photonics systems and mobile systems, was established and began operations. As AI adoption expands across enterprises and becomes increasingly indispensable, the Hardware Solutions segment that supports the utilization of data for AI must also evolve and be implemented with that same speed. As a technology company, we are examining how to provide systems that are optimal for each solution required in the future.

The second is the Customer Success Strategy/Regional Strategy, through which we are promoting business related to modernization and transforming our business outside of Japan.

Business related to modernization has been experiencing steady growth in both orders received and sales, with a massive increase in revenue in fiscal 2025 of 24% in comparison with fiscal 2024, achieving the initial plan. Following fiscal 2024, business operations were made more sophisticated and efficient in fiscal 2025 by efficiently and flexibly assigning resources, developing specialized human resources certified as Modernization Meister, and providing automatic language conversion tools. Horizontal solutions of Uvance were integrated to link modernization with Uvance, thereby advancing proposals of digital transformation. We also established development platforms leveraging generative AI.

In regard to business outside of Japan, although total revenue for the Regions (International) segment for fiscal 2025 was 575.2 billion yen, an approximately 2.5% decrease from fiscal 2024, business portfolio transformation and restructuring resulted in the operating profit margin improving to 5.9% from 4.1% in fiscal 2024. We will continue seeking to expand the services business centered on Uvance and also improve profitability in all areas.

The third is the Technology Strategy, through which we are strengthening core technology. Centered on AI and computing, we are creating strategic links with external partners as we strengthen technology tied to the differentiation of services.

We continue to strengthen AI, particularly generative AI, advancing internal deployment of multi-AI agents and implementation within Uvance offerings. In quantum computing, we developed a 256-qubit machine and began offering it in the first quarter of fiscal 2025. In September 2025, we completed a dedicated quantum computing facility at our Fujitsu Technology Park (Kawasaki City) at our company headquarters. In fiscal 2026, we plan to develop and install a world-class 1,024-qubit machine at this facility.

We are also advancing the development of the next-generation processor “FUJITSU-MONAKA” in collaboration with strategic partners. In October 2025, we announced the expansion of a strategic collaboration aimed at building AI infrastructure that combines domain-specific AI agents operating on computing platforms equipped with the Company’s CPUs and NVIDIA Corporation GPUs, and we are advancing development.

We are aiming to both create and commercialize new technology by continuing to accelerate research and development.

The fourth is the People Strategy, through which we are creating a solid human resources portfolio linked to our business operations. We are currently transforming our human resources portfolio in linkage with our business portfolio, and are continuously reviewing the systems and human resources management needed to achieve this transformation. We have been transitioning to a job-based personnel system in order to improve the fluidity of global human resources, and from April 2026, this job-based personnel system has been applied to new graduates joining the company as we implement treatment according to job level. The posting system introduced in fiscal 2020 has been established as a means of career development. Due to this, employees are active in reskilling through autonomous study of the skills needed for the focused business area and career development, while systemic and environmental improvements are linked to changing the behavior of employees. In October 2025, the global HR platform OnePeople was launched in Japan and will be rolled out globally in stages. Moving forward, we will continuously implement measures to improve business growth and productivity by strengthening resources of focused business areas, improving corporate efficiency, and shifting resources including external transfers.

In addition to the above four key strategies, we have continued our company-wide efforts to improve overall profitability of Service Solutions. We have transformed delivery operations centered on Global Delivery Centers handling offshore system development and delivery, as well as the Japan Global Gateway, which coordinates international development bases from Japan, to improve the overall profitability of Service Solutions. In fiscal 2025, we further expanded the use of the Japan Global Gateway and enhanced standard delivery models. We expanded our pricing strategies based on providing value to our customers and implemented initiatives for continuous revenue growth. Implementing these measures resulted in a 2% gross margin improvement in fiscal 2025. In addition, to improve efficiency and standardization in development through generative AI, we established a secure development environment using generative AI. This was first provided to approximately 30,000 software engineers in Japan and the Company’s partner companies, and from the second half of fiscal 2025, rollout began in 36 countries internationally.

[Non-financial Initiatives]

In the non-financial area, the Fujitsu Group set KPIs for fiscal 2025 in four areas: Environment, Customer, Productivity, and People. We also had initiatives targeted to achieve these goals. In the area of the Environment, we have set greenhouse gas reduction as a KPI, and expect to achieve a 59.2% reduction in Scopes 1 and 2 for the Fujitsu Group and a 42.8% reduction in Scope 3 for our supply chain compared with fiscal 2020. With regard to Customer, we aimed for a 20-point increase in “Customer NPS®” compared to fiscal 2022, and achieved an increase of 27.4-point in fiscal 2025. In terms of Productivity, we aimed to achieve a 40% increase in adjusted operating profit per employee compared with fiscal 2022, and expect to achieve an increase of 89% in fiscal 2025. For People, we aimed to achieve a global score of 75 for “Employee Engagement.” Based on the results of a survey of all employees and other inputs, we implemented various initiatives, improving the score by 2.0-point from fiscal 2022 to 71 in fiscal 2025. In addition, as an indicator of diversity leadership, we aimed to increase the percentage of female managers globally from 15% in fiscal 2022 to 20% in fiscal 2025. However, the ratio is expected to be at 17.5% in fiscal 2025, meaning

that both targets are not expected to be achieved. Additionally, continuing from fiscal 2024, we advanced quantitative analysis to understand how these non-financial initiatives contribute to financial performance.

Notes:

1. Customer NPS®: Abbreviation for Customer Net Promoter Score, an indicator to measure “customer loyalty,” which presents the degree of trust and attachment of customers to companies, products, or services, in order to understand the degree of improvement and depth of the customer experience (CX).
2. Employee Engagement: An indicator to present willingness and attachment to work voluntarily and independently, and to contribute to the Company, with empathy for the Company’s direction and Purpose.

[Review of the Three Years Through Fiscal 2025]

Over the three years through fiscal 2025, we achieved steady improvement in profitability as a result of worldwide progress made in transforming our business and human resources portfolios and strengthening our management foundations. Adjusted operating profit marked a record high for the fourth consecutive year on a consolidated basis. Similarly, adjusted operating profit in the core Service Solutions segment improved steadily in both amount and margin, marking growth for six consecutive fiscal years, including the period of the medium-term management plan that began in fiscal 2020. As described above, our cash generation capacity improved significantly with core free cash flow having improved to 1.8 times its level compared to fiscal 2022, which is the first year of the period of the medium-term management plan, due to more efficient working capital management, in addition to profit expansion in the core business. Furthermore, measures such as carve-outs of the non-core businesses (including SHINKO ELECTRIC INDUSTRIES CO., LTD., Fujitsu General Limited (now GENERAL Inc.), and FDK CORPORATION), in addition to improvement in the core business, resulted in free cash flow improving to 2.7 times the fiscal 2022 level, thereby strengthening our fundamental capacity for growth investment going forward.

[Mid-to-long-term Management Vision 2035]

The Company has positioned the period of the medium-term management plan covering fiscal 2023 to fiscal 2025 as a preparatory phase for building the foundation needed to become a company capable of sustainable growth, and has pursued the necessary transformation across its businesses and management foundation. We will position fiscal 2026 and beyond as a period of growth, make full use of the environment we have developed through our transformation to date, and work to further enhance corporate value. Until now, we have formulated management plans in three-year cycles and worked toward achieving their targets. The new management plan beginning in fiscal 2026, however, will be formulated as a ten-year medium- to long-term vision with fiscal 2035 as its goal. Today, social conditions are changing at a speed and complexity that is difficult to predict. Under a three-year medium-term management plan, the business environment assumed when developing strategies can change significantly by the time the three-year goal is reached, causing measures and targets to no longer align with actual conditions. In addition, new businesses that will drive future growth and existing businesses focused on expansion and efficiency from the current base require different time horizons for considering and executing investments and measures. For these reasons, we decided to define the Company's desired state ten years from now, set targets each year toward that vision, and move toward near-term goals while making course corrections along the way.

Towards fiscal 2035, we will advance technology-driven value creation in areas where the Company has strengths, such as AI and computing. With trusted technology at our core, we will further pursue speed and scale in aiming to become a company that grows together with its customers and society. We will also advance the consideration and execution of measures with AI-driven management support as a growth pillar. Our customer base spans all industries, including the public sector, and we have been involved in the development, operation, and maintenance of business applications for more than 50 years. Social implementation of AI and other technologies hinges on the application and implementation of new business designs and new technologies through an understanding of current business operations and IT systems underpinning such operations. We aim to lead a technology-driven transformation of customer business processes and society, leveraging our knowledge and solution-based capabilities that extend from the management level to the front lines with respect to customers in a variety of industries and business operations.

The Company will itself transform all of its corporate activities to be AI-driven as a company that creates and implements AI solutions. We will furthermore apply such technology and experiential know-how toward helping our customers achieve AI-driven management. To such ends, we will focus on the following three initiatives. First is the scaling of AI-driven development. Starting in January 2026, we began operating a development platform that automates everything from defining requirements to implementation and testing using AI. We will successively expand the application of this platform to projects where it can be applied and also harness generative AI, while taking on the dual aims of enhancing the speed of our customers' management and operations as well as continually improving the profitability of the Company itself. Second is the evolution of our human resources portfolio. From fiscal 2026, we will proceed with efforts to upgrade

our workforce premised on collaboration between humans and AI. We will concentrate our talent on domains that produce growth and high added value, including consulting, data & AI, and advanced technology research. The third is the enhancement of our management foundation. We will proceed with the full-scale implementation of AI-driven management utilizing our own AI, based on global, standardized data infrastructure established through the OneFujitsu program, thereby enhancing the speed and quality of our decision-making and management judgments.

[Initiatives in Fiscal 2026]

In fiscal 2026, we will continue focusing on expansion in Service Solutions through business related to Uvance and modernization. We will also shift from management by region to management by industry. We aim to deepen our understanding of customers, industries, and operations, globally deploy a business model in which we work with customers to solve their specific issues, and connect this to cross-industry efforts to solve social issues. To improve profitability, we will continue targeting a 2% improvement in the gross margin ratio through initiatives such as standardizing development processes and expanding the use of generative AI. We will also further strengthen investments, particularly in advanced research such as the large language model “Takane,” AI technologies using AI Platform Kozuchi, development of a superconducting quantum computer with more than 10,000 qubits, and the next-generation processor “FUJITSU-MONAKA.” By steadily achieving our annual targets, we will build a track record and trust, create new businesses through technology, and advance initiatives aligned with our vision for 2035.

The Fujitsu Group will continue to use data to make prompt decisions, while leveraging digital technology and its track record and expertise it has accumulated in a variety of industries to contribute to the creation of a safe, secure, and prosperous society.

b) Compensation of Directors and Audit & Supervisory Board Members

A. Policy on the Determination of Executive Compensation

To make its executive compensation systems even more transparent, the Company established a Compensation Committee based on a corporate resolution of the Board of Directors in October 2009. Compensation of Directors and Audit & Supervisory Board Members, which is aggregated in “B. Total Compensation Paid for Fiscal 2025,” is determined within the scope of total compensation established by resolution of the Annual Shareholders’ Meeting based on the framework of the basic policy on executive compensation (policy on executive compensation including the policy on the determination of the details of compensation, etc. for individual Directors (hereinafter referred to as “the Determination Policy”)), which was determined by the Board of Directors following the recommendation by the Compensation Committee. Compensation for each Director is determined by resolution of the Board of Directors following the deliberation of the Compensation Committee, and compensation for each Audit & Supervisory Board Member is decided based on consultation with the Audit & Supervisory Board Members.

In determining the details of compensation of each Director for fiscal 2025, the Compensation Committee composed of Independent Directors made considerations from various viewpoints based on the Determination Policy, and the Board of Directors that received recommendation of the Compensation Committee confirmed that the determination of the details of such compensation was in accordance with the above operation and therefore confirmed that the determination was in conformity with the Determination Policy.

The details of the Determination Policy concerning fiscal 2025 (revised at the meeting of the Board of Directors held on March 27, 2025) are as follows.

Basic Policy on Executive Compensation

The Company has established the following basic policy on executive compensation to secure the exceptional human resources required to manage the Fujitsu Group and achieve its Purpose “Make the world more sustainable by building trust in society through innovation,” and to further strengthen the link to its financial performance and shareholder value while at the same time improving its transparency.

1. Policy on the Compensation System and Compensation Levels

- Executive compensation is comprised of the following: “Base Compensation,” specifically a fixed monthly salary in accordance with position and responsibilities; “Bonuses” that are compensation linked to short-term business performance; and “Stock Compensation,” which is a medium- and long-term incentive that emphasizes the connection to shareholder value.
- With the aim of setting competitive compensation that contributes to securing and maintaining exceptional human resources, compensation levels and composition ratio by type shall be set based on the financial position of the Company, comparing the compensation composition ratio and compensation levels for each position and responsibility at global companies in Japan and overseas with similar business lines and similar scale as benchmarks.
- The ratio of performance-based compensation (bonuses and performance-based stock compensation) to the total compensation for Executive Directors shall be determined so as to strengthen the link to the Group’s financial performance and shareholder value by setting the higher ratio to the greater responsibilities.
- Individual director’s compensation shall be determined by the Board of Directors following deliberation by the Compensation Committee to ensure objectivity, transparency and fairness.

Recipient	Base compensation (1)	Bonuses (2, 6)	Stock compensation	
			Performance-based stock compensation (3a, 5, 6)	Restricted stock units (3b, 5)
Executive Directors	X	X	X	—
Non-executive Directors	X	—	—	X
Audit & Supervisory Board Members	X	—	—	—

2. Basic Policy on Executive Compensation Items

(1) Base Compensation

Base compensation is paid to all executives (Directors and Audit & Supervisory Board Members). A fixed monthly amount shall be paid in accordance with the position and responsibilities of each executive.

(2) Bonuses

- Bonuses shall be paid to Executive Directors. The amount of a bonus shall reflect business performance in the respective fiscal year.
- Bonuses are determined using an “On Target model” in which the base amount is set in advance in accordance with their position and responsibilities, and the corresponding base amount is multiplied by a coefficient in the range of 0% to 200% according to degree of performance achievement of each evaluation indicator, etc. Specific evaluation indicators consist of financial and non-financial indicators of management objectives, etc., and these are weighted and evaluated according to the methods indicated below.

Evaluation indicators		Weight	Evaluation method
Financial indicators	Consolidated revenue	15%	Degree of achievement of the performance targets in the current fiscal year
	Adjusted consolidated operating profit	40%	
	Core free cash flow* ¹	25%	
Non-financial indicators	Customer NPS®* ²	5%	Degree of increase from the previous fiscal year and score results of the current fiscal year, etc.
	Employee engagement* ³	5%	
	Diversity leadership (Percentage of female managers)	5%	
	Third-party evaluation in relation to ESG	5%	

Notes:

- *1. Ordinary free cash flow, excluding one-time cash inflows or outflows from such activities as business restructurings, structural reforms, and M&A.
- *2. Abbreviation for Customer Net Promoter Score. It is an indicator to measure “customer loyalty,” which presents the degrees of trust and attachment of customers to companies, products, and services, in order to understand the degree of improvement and depth of the customer experience (CX).
- *3. An indicator to present willingness and attachment to work voluntarily and independently, and to contribute to the Company, with empathy for the Company’s direction and Purpose.

(3) Stock Compensation

a) Performance-based Stock Compensation (performance share units)

- Performance shares shall be granted to Executive Directors, in order to share the profit with shareholders and as an incentive to contribute to the enhancement of medium- to long-term business performance.

- A base number of stock units shall be set in accordance with the position and responsibilities in advance. Upon completion of the performance judging period (three years), the total number of shares is calculated by multiplying the set base number of stock units by a coefficient in the range of 50% to 150% according to degree of performance achievement of each evaluation indicator, etc., based on each stock unit being equivalent to one share of the Company. A portion of the total number of shares is paid in cash for the amount equivalent to the Eligible Person's tax payment and other financial burden arising from the compensation paid, and the remainder is allocated in shares of the Company. For specific evaluation indicators, greater emphasis is placed on profitability and value sharing with shareholders in the medium to long term, and these are weighted and evaluated according to the methods indicated below.

Evaluation indicators	Weight	Evaluation method
Adjusted consolidated operating profit	40%	Degree of achievement of the performance targets during the performance judging period (three years)
Adjusted EPS (profit for the year per share)	30%	
TSR (total shareholder return)	30%	Superiority of TSR over the TOPIX growth rate and the results of comparisons with the TSRs of pre-selected peer group companies at the end of the performance judging period (three years) * Weight is 15% for each.

b) Restricted Stock Units

- Restricted stock units (under a post-delivery type incentive plan that grants shares as compensation after confirming the right which is subject to a certain period of continuous service) shall be granted to Non-executive Directors, in order to share the profit with shareholders and as contribution to the sustainable enhancement of corporate value.
- A number of stock units shall be set in accordance with the position each year in advance. Upon completion of the period of continuous service (three years), the total number of shares is calculated, based on each stock unit being equivalent to one share of the Company, and a portion of the total number of shares is paid in cash for the amount equivalent to the Eligible Person's tax payment and other financial burden arising from the compensation paid, and the remainder is allocated in shares of the Company.

(4) Benchmark Composition Ratio for Compensation

The benchmark ratio of "base compensation," "bonuses," and "performance-based stock compensation" of Executive Directors shall be 1:1:4 for Representative Director, CEO, 1:1:2.5 for Representative Director, Corporate Vice President, and 1:1:2 for Director and Corporate Executive Officers. In addition, the benchmark ratio of "base compensation (excluding allowances)" and "restricted stock units" for External Directors shall be 7:3. Note that as the applied ratios are approximate amounts set based on a certain financial performance and stock price of the Company, ratios for the actual compensation amounts will vary from the above ratios depending on the actual financial performance and stock price of the Company.

(5) Stock Holding Guideline

The Company has established the Stock Holding Guideline with the aim of promoting long-term value sharing with shareholders. Directors who are eligible to receive stock compensation shall make an effort to hold at minimum the certain number of the Company's shares set for each position during their terms of office. Representative Director, CEO shall make an effort to hold the Company's shares equivalent to twice as much as the annual amount of base compensation by the time four years have passed after taking office, Executive Directors other than the Representative Director, CEO shall make an effort to hold the Company's shares equivalent to 1.5 times as much as the annual amount of base compensation by the time four years have passed after taking office, and Non-executive Directors shall make an effort to hold the

Company's shares equivalent to 0.5 times as much as the annual amount of base compensation (excluding allowances) by the time five years have passed after taking office, and all shall continue holding them during the term of office.

(6) Return of Compensation (Malus and Clawback Policy)

In the event of an inappropriate accounting treatment including material ex-post adjustments to past-year financial results or a serious misconduct or compliance violation during the term of office, the Company may demand reduction or return of performance-based compensation (bonuses and performance-based stock compensation) to the relevant Executive Director, including a person who retired within two years, based on a decision of the Board of Directors after deliberation by the Compensation Committee.

As resolved at the Annual Shareholders' Meeting, the total amount of the "base compensation" and "bonuses" to Directors shall not exceed 1,200 million yen per year (including the portion for External Directors not exceeding 150 million yen per year). The amount of the "performance-based stock compensation" for Executive Directors shall not exceed 2,500 million yen per year, with the total number of shares to be allocated not exceeding 1 million shares per year. And the amount of the "restricted stock units" for Non-executive Directors shall not exceed 100 million yen per year, with the total number of shares to be allocated not exceeding 60,000 shares per year (including the portion for External Directors not exceeding 90 million yen per year; with the total number of the shares to be allocated not exceeding 53,000 shares per year).

The amount of "base compensation" for Audit & Supervisory Board Members shall not exceed 150 million yen per year.

Note:

At the 126th Annual Shareholders' Meeting to be held on June 29, 2026, if Proposal No. 3 indicated on Page 21 of the "Notice of the 126th Annual Shareholders' Meeting" is approved, the upper limit of the "base compensation" for Audit & Supervisory Board Members will be set at 250 million yen per year. Therefore, the Determination Policy will be revised to reflect this content.

D. Matters Related to Performance-based Compensation for Fiscal 2025**i) Details of performance indicators for the calculation basis and reason for selecting them****a. Bonuses**

In order to provide Executive Directors with an incentive to achieve their performance targets for a single fiscal year, the Company has selected revenue, operating profit and core free cash flow of the consolidated financial results, which are financial management target indicators for the Company, as evaluation indicators. In addition, the Company has selected “Customer NPS[®],” “Employee Engagement,” and diversity leadership (percentage of female managers), which are non-financial management target indicators for the Company, and the third-party assessments on ESG initiatives, as evaluation indicators to enhance the commitment of Executive Directors to achieving their management targets.

b. Performance-based Stock Compensation

In order to provide Executive Directors with an incentive to increase corporate value over the medium to long term as well as to further promote management from the perspective of shareholders, the Company has selected operating profit and EPS (profit for the year per share) of the consolidated financial results, which are financial management target indicators for the Company, as well as TSR (total shareholder return) as evaluation indicators.

Notes:

1. In regard to “b. Performance-based Stock Compensation,” the Company selected revenue, operating profit, and EPS of the consolidated financial results, which were financial management target indicators, as evaluation indicators. However, for those whose performance judging period begins from fiscal 2024, the evaluation indicators have been changed to operating profit and EPS of the consolidated financial results, and TSR based on a resolution of the 124th Annual Shareholders’ Meeting held on June 24, 2024. The objective of this change is to place greater emphasis on profitability and sharing value with our shareholders in the medium to long term.
2. Operating profit and profit for the year in EPS, which are evaluation indicators for “a. Bonuses” and “b. Performance-based Stock Compensation,” are adjusted operating profit and adjusted profit for the year (an indicator that represents an actual profit from the core business calculated by deducting profits and losses from business restructurings, structural reforms, M&A, etc., and one-off profits and losses, etc. from changes in regulations, etc. from operating profit and profit for the year). This was set as the financial targets in the Company’s medium-term management plan.

ii) Calculation method**a. Bonuses**

At the beginning of each fiscal year, the Company will present the Executive Directors with a base bonus amount in accordance with their position and responsibilities, and evaluation methods including evaluation indicators and performance targets. Additionally, at the end of the relevant fiscal year, the bonus amount to be paid will be calculated by multiplying the base bonus amount by a coefficient according to the evaluation results of performance achievement degree, etc. No bonus will be paid if the degree of achievement of the performance targets is less than the preset lower limit. In addition, if the degree of achievement of the performance targets exceeds the preset upper limit, the amount obtained by multiplying the base bonus amount by the preset upper limit of the coefficient will be paid.

Note:

For “a. Bonuses,” the payment rate is calculated using a coefficient that varies between 0 and 200% depending on the degree of achievement of performance targets, etc.

b. Performance-based Stock Compensation

The Company will present to Executive Directors a base number of stock units in accordance with their position and responsibilities, a performance judging period (three fiscal years), and evaluation methods, including evaluation indicators and performance targets, in advance. The number of stock units is calculated by multiplying base number of stock units by a coefficient according to the evaluation results of

performance achievement degree, etc. and is fixed at each fiscal year and at the end of the performance judging period. When the performance judging period is over, for each Eligible Person, the total number of shares is calculated, based on one of the aforementioned stock units being equivalent to one share of the Company, and a portion of the total number of shares is paid in cash for the amount equivalent to the Eligible Person's tax payment and other financial burden arising from compensation paid under the Plan and the remainder is allocated in shares of the Company, under the condition that each Eligible Person continues to be in the position of an Eligible Person in the plan throughout the performance judging period and that the Eligible Person fulfills the certain requirements set forth in advance by the Board of Directors. At that time, monetary compensation claims and cash equivalent to market value of the total number of shares mentioned above are provided to each Eligible Person. Each Eligible Person invests in kind all these monetary compensation claims in allocated shares to acquire shares of the Company. The proportion of the amount paid in cash out of the total shares is determined by the Board of Directors, taking into consideration the tax obligation and other financial burden above of each applicable Eligible Person.

Note:

Under the "b. Performance-based Stock Compensation," to share value with shareholders and contribute to the sustainable enhancement of corporate value, a fixed portion is provided as a base payment in addition to the performance-linked portion. Based on this, the payment rate is calculated using a coefficient that varies between 50 and 150% depending on the degree of achievement of performance targets, etc.

iii) Targets and actual results of performance indicators related to performance-based compensation for fiscal 2025

	<i>Targets (Billion yen)</i>	<i>Results (Billion yen)</i>
Consolidated revenue	3,530.0	3,502.9
Adjusted consolidated operating profit	380.0	390.5
Core free cash flow	260.0	289.9
Adjusted EPS	132.2-139.2 yen	169.1 yen

Note:

Adjusted EPS is calculated using adjusted profit for the year, which represents actual profit from the core business calculated by deducting profits and losses from business restructurings, structural reforms, M&A, etc., and one-off profits and losses, etc. from changes in regulations, etc. from the profit for the year. Regarding this indicator, the Company has set targets based on achieving the EPS management target of a CAGR of 14-16% under the medium-term management plan (fiscal 2023 to fiscal 2025). Targets and actual results that have been calculated using the total number of outstanding shares after the stock split are stated, since the Company implemented a ten-for-one stock split with an effective date of April 1, 2024.

TSR (total shareholder return) used in the evaluation indicators of performance-based stock compensation is evaluated using the superiority of TSR over the TOPIX growth rate and the results of comparisons with the TSRs of pre-selected peer group companies at the end of the performance judging period (three fiscal years), such that indicators are not set at the start of the period. Additionally, these evaluation indicators are applied to compensation for which the beginning of the performance judging period is fiscal 2024, and evaluation is performed only using the results at the end of the performance judging period (three fiscal years), such that there are no evaluation results for fiscal 2025.

E. Matters Related to Non-monetary Compensation, etc., for Fiscal 2025

Non-monetary compensation in the Company's executive compensation consists of performance-based stock compensation for Executive Directors and restricted stock units for Non-executive Directors, and the purpose and details of the introduction are described in "A. Policy on the Determination of Executive Compensation, Basic Policy on Executive Compensation." In the fiscal 2025, shares were delivered as performance-based stock compensation and restricted stock units, the status of which is described in "(6) Shares Granted as Consideration for Duties Performed by Directors and Audit & Supervisory Board

Members of the Company during the Period under Review” on Page 3 of the “Matters Subject to Measures for Electronic Provision for the 126th Annual Shareholders’ Meeting (Matters Excluded from Paper-Based Documents Delivered).” Furthermore, information concerning non-monetary compensation, the amount of expenses recorded in fiscal 2025 is described in “B. Total Compensation Paid for Fiscal 2025.”

[Reference] Strategic shareholdings

The Company holds only those strategic shares with clear-cut objectives and positive, meaningful significance. The Board of Directors examines the weighted average cost of capital of the Company as the standard to evaluate quantitatively whether returns (quantitative factors such as dividends and the state of transactions) or risks are well balanced with the cost. If quantitative significance in shareholdings is not found, the Board of Directors will further evaluate whether there is a qualitative reason that supports the rationale for continuing to hold those shares and will discuss the continuation of such holdings. During fiscal 2025, the Company sold 8 issues.

As of March 31, 2026, the total amount recorded on the balance sheet for strategic shareholdings is 86.3 billion yen, accounting for 4.2% of total equity (consolidated net assets).

<Changes in the status of strategic shareholdings (as of the end of each fiscal period)>

	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025
Number of issues held	135	129	123	120	115
Total amount recorded on the balance sheet (Million yen)	91,420	121,728	69,064	56,008	86,349
The percentage of total equity (consolidated net assets)	5.3%	7.0%	3.6%	2.9%	4.2%

Note:

The increase in the total amount recorded on the balance sheet at the end of the current fiscal period is due to investments for business growth in line with our management strategy, as well as fluctuations in the market valuation of the listed stocks we hold.
