## Trends in Amount of Waste Generated and Disposal Volume

| Indicator                         | FY2022 | FY2023 | FY2024 | FY2025 |
|-----------------------------------|--------|--------|--------|--------|
| Amount of Waste Generated [ktons] | 11.6   | 9.6    | 9.9    | 3.4    |
| Thermal recycling volume [ktons]  | 1.7    | 1.9    | 1.5    | 0.6    |
| Material recycling volume [ktons] | 9.4    | 7.3    | 8.1    | 2.6    |
| Disposal volume [ktons]           | 0.5    | 0.4    | 0.3    | 0.2    |

- Future Approach to Waste Management: We will strive to reduce waste generation to a level no higher than the average waste generation for fiscal years 2021–2025 (2,061 metric tons) by the end of fiscal year 2030.
