

Table. Nature-related dependences and impacts (Preliminary results)

Business segment	Industry classification	Value chain	Impact drivers							Supply services			Adjustment services				
			Ecosystem use	Water use	Natural Resource Utilization	GHG emissions	Emission of air-pollutants	Emission of harmful pollutants to water and soil	Emission of solid waste discharge	Invasive species	Supply of biological resources	Water supply	Supply of other resources	Climate Adjustment	Soil Retention	Pollution remediation	Mitigation of natural disasters
Services/hardware SL	Mining	Upstream	High	High	High	High	High	High	High	High	High	High	High	High	High	High	High
Services/hardware SL	Chemical and chemical finished goods manufacturing	Upstream	High	High	High	High	High	High	High	High	High	High	High	High	High	High	High
Services/hardware SL	Manufacture of rubber and plastic finished goods	Upstream	High	High	High	High	High	High	High	High	High	High	High	High	High	High	High
Services/hardware SL	Manufacture of metal finished goods	Upstream	High	High	High	High	High	High	High	High	High	High	High	High	High	High	High
Services/hardware SL	Manufacture of computer, electronic and optical finished goods	Upstream	High	High	High	High	High	High	High	High	High	High	High	High	High	High	High
Services/hardware SL	Electrical Equipment Manufacturing	Upstream	High	High	High	High	High	High	High	High	High	High	High	High	High	High	High
Services/hardware SL	Transportation and storage	Upstream	High	High	High	High	High	High	High	High	High	High	High	High	High	High	High
Services SL	Information and Communication	Direct operations	High	High	High	High	High	High	High	High	High	High	High	High	High	High	High
Hardware SL	Manufacturing	Direct operations	High	High	High	High	High	High	High	High	High	High	High	High	High	High	High
